

Dear Parents and Campers,

The Ranch Hand program at Camp Tamarack is designed for campers who are dedicated to improving their horsemanship and understanding the care and behavior of horses.

So we may organize the Ranch Hand program to maximize positive learning experiences for our campers, we are asking that prospective participants send in the following application. Returned applications will enable us to separate Ranch Hands into Sr and Jr groups. These programs will be designed to meet the needs of the Ranch Hands participating in them. Please keep in mind that space in this program is limited and the completion of an application does not assure a Ranch Hand position. Acceptance is based on availability and skill level. We will contact you regarding acceptance before your session begins. Please return the Ranch Hand Form in a timely manner as there is limited space available.

Campers who apply should recognize that they will be involved in riding instruction, grooming and corral management, trail rides and the hard work associated with working with horses. We hope that parents and campers will talk before returning the application to be sure that this is the experience the camper wants to participate in while at camp.

Parents, we appreciate any help you can give your child in filling out the application. Our hope is that it will enlighten us to his/her capabilities and help us plan the best possible experience while enrolled at Camp Tamarack.

Sincerely,

Heather Tyrrell
Horse Program Director
